NEW PATIENT REGISTRATIONS

Welcome to Bloxham & Hook Norton Surgery, we are pleased that you have chosen to register with our surgery. We aim to offer a caring and friendly service to all our patients and to offer continuity of care which we believe is the essence of General Practice. With the ever-increasing demands on our time and the increase in number of consultations the only way we can maintain our service if for our patients to respect this and use our service appropriately.

We feel it is important for us to hi-light a few points to you prior to your registering with us so you can make a decision as to whether we are the surgery for you.

Appointments are 10 minutes long- although we don't specify that it is one problem/one appointment we ask that you are mindful of what can be achieved in 10 minutes.

At times we appreciate that patients need more than 10 minutes and we try to give these patients the time they need, when they need it, consequently sometimes our surgeries may run late but we endeavour to keep you informed regarding this.

Medication – we prescribe 28 days medication and prescribe drugs as per local guidelines which are evidence based. This doesn't mean that we prescribe 'cheaper' medication, it does mean however that if moving into the area, you might currently be prescribed medication which doesn't fall within our formulary and we would need to discuss with you the changes which we would need to make to be able to offer ongoing medication to you.

- We believe that as patients you should play your part in looking after yourself, smoking and obesity are the biggest causes of chronic illness and hence utilization of NHS resources.
- We don't expect patients to attend with viral illnesses and minor complaints that can be dealt with following advice from the pharmacist.
- We expect patients who have booked appointments to turn up to them.
- We expect patients who we have referred to hospital for appointments, to turn up to them.
- Our Receptionists are her to help you and we wont tolerate any unacceptable behaviour towards them.
- Certain patient services/ requests fall outside of NHS funding, a list of charges applicable are on our website and are available when you enquiry at Reception.
- Should you wish to discuss or would like us to clarify any of these points with you prior to your registration, please do just ask at reception. I have read and understand the above information and am aware that should the doctors feel that I have not behaved in accordance to the above, it could result in me being asked to leave the Practice.

Summary Care Record and Oxfordshire Care Summary – your choice

Please note that these records are **NOT CONNECTED** with the Health and Social Care Information Centre (HSCIC) single database care.data project, and will be used **only** for the purpose of enabling informed care to be supplied directly to you as an individual.

Your patient record is held securely and confidentially on the electronic system at your GP practice. If you require treatment in another NHS healthcare setting such as an Emergency Department or Minor Injury Unit, those treating you would be better able to give you appropriate care if some of the information from the GP practice were available to them.

This information can now be shared electronically via:

1. **The Summary Care Record:** used nationally across England
2. **The Oxfordshire Care Summary:** used locally across Oxfordshire

In both cases, the information will be used **only by authorised health care professionals directly involved in your care**. Your permission will be asked before the information is accessed, unless the clinician is unable to ask you and there is a clinical reason for access.

A parent or guardian can request to opt out children under 16 but ultimately it is the GP's decision whether to create the records or not, because of their duty of care to the child. If you are the parent or guardian of a child under 16 and feel that they are able to understand, then you should make this information available to them.

Are you happy for us to share this electronic information with clinicians in other NHS organisations who are involved in your care? If you would rather we didn't, we will put an entry on your record which will prevent your information from being shared.

Please select **ONE** option in **BOTH** tables below and complete patient details overleaf.

Your choice for <u>SCR</u>	Please tick <u>one</u> box only
I would like my information shared through the Summary Care Record	
I do not want my information shared through the Summary Care Record	
I would like a Summary Care Record with additional information added **	

Your choice for <u>OCS</u>	Please tick <u>one</u> box only
I would like my information shared through the Oxfordshire Care Summary	
I do not want my information shared through the Oxfordshire Care Summary	

It is important to complete and return this form, as your new practice cannot make a decision for you. Without your direction, we cannot guarantee that your wishes will be met, even if you have previously made a similar choice in another practice.
